New club was opened!

Recently in our school was opened "English Fans club". It's an amazing new. Everyone can come to us and become part of our family. Club has an enormous plans. At first, we think we will have a lot of students, who really interested in English language. At second, we will make relationships with schools ~~in~~ in other countries better for studying our pupils there and practice their language. In "English Fans club" lessons are everyday ~~from 5 till 7 o'clock in the evening~~, that's why students can make comfortable for their timetable. In our club are many benefits: the main fact - everything is absolutely free! All pens books and copybooks will be given you at the first lesson. Also there are many young teachers, with who you can feel comfortable and who can help you in every time. By all means, our club is the first and the best club in our city. You can show yourself, find new friends try your knowledges in new atmosphere and learn a lot of new things. In conclusion, we can say, that we wait you with all your friends! Come to our club as soon as you can! We always glad to see you!

Drama Club.

I want to tell you about Drama club in my school. But the most interesting part begins when it's time to prepare for the performans. Then all the actor are given roles, and we start reading the script. Then we try to embody our characters on stage, try on costumes, leaven to work with the decorations. I really enjoyed it there, so I decided to try my hand at acting as well. After enrolling in the studio, I didn't expect that learning acting could be so interesting and piece of cake. Our teachers turned out to be very fun people. They communicate with us on an equal footing and constantly come up with unusual. So gradually a new world is born before our eyes. We immerse our ourselves in it and without even realizing it, live completely different lives. That's all. We happy with us!

I am going to talk about teachers. Aaron Beccoll said: "Your heart is slightly larger than the average human heart, but that's because you're a teacher". I think, that teachers play a very important role in my life and, of course, in every person's life. We spend a lot of time at school during our childhood and teenage life. Eleven years we spend at school (or nine years), and also after school we go to college or university. All this time we communicate with our teachers. These people give a lot of knowledge, and life experience to us, teach us to communicate with each other and prepare us for ~~also~~ adult life. Every teacher trying to find a way into student's hearts. I ~~this~~ think, that it is really hard to find right way for every student to give him some knowledge during his studies. But some students need a need to spend more time on studies or to give more attention for some special subjects for him. They go an extra mile to teach their students. To be a good teacher people should have a too lot of special skills, for example communicative skills, teaching skills, psychology skills, skills in taking care of children and many others. Teachers of my school are very kind, clever, understanding, serious and funny ~~as~~ at the same time, friendly and ~~help~~ ~~helpful~~ helpful. Teachers really contribute to my growth, and I am very pleasant to them for this. They teach me to be more confidence and helpful. They teach me how to communicate with people and they prepare me for adult life. Of course, I ~~can~~ want to say, that they really changed my attitude to studies and some things in my life. They give me motivate to become better, improve my skills and change my life only for the better. I am very pleasant for all of this. I guess, that when I will be an adult I will remember my teachers and think about all this things that they did for me and my future. That's all that I wanted to tell.

We should love our teachers

The year 2023 - the year of teachers and mentors - is coming to its end I think that teachers are ones of the kindest, smartest and lovely people in the world. Teachers are following us all the way during our learning process and they're ready to help you any moment. Let's remember every situation where teachers helped us - bet no one can remember all of it. It's all because teachers are helping us every single day. They can be strict but they'll still be a teacher and teach pupils. But every teacher can find a way into one's heart. Once, Aaron Bacall said, "your heart is slightly larger than the average human heart, but that's because you're a teacher". Everyone can agree with the quote. That's all because teachers love every student in the school. Every teacher will try to help their pupils to get an education. At the end of it we'll leave the school and become adults. But our teachers will stay in our hearts till the end of our lives. I'd like to thank all of my teachers. Thanks to the PE teacher for making us active and healthy. Thanks to the Math teacher for teaching us how to count. Thanks to the foreign languages teachers for letting us speak not only native but a foreign languages. Thanks to the Geography teacher for telling us more about our country. Thanks to the social studies teacher for teaching us about our culture. As a conclusion, I'd like to say that teachers will love and help their students in any situation. Students can be different there are needs or ones that have a trouble with learning. But teacher will be ready to help you any moment. That's why we should love our teachers and mentors.

The teachers true sight

As you all may know 2023 year - is a teachers year. So this blog is going to be about teachers, their skills, personal traits and etc.

To my mind teacher - is a such a lovely job. Teachers may find a way, into one's heart. As Aaron Bacall says: "your heart is slightly bigger larger than the average human heart, but that's because you're a teacher".

All teachers work not for money, or career, but for childrens. For small childrens, teachers help to find yourself in world, help to understand all in your life. For bigger childrens, teachers are life mentors, which solve your life problems, and sympathize to you. For example I will tell you a story from my school life, when teachers change my life. When I was about 7 years old, I entered school for the first time. My opinion about school was like this: for what that school needs me, in future it doesn't need me. But then, past 4 years, in 5 grade, I meet my new teacher of Russian language. She helped contribute to my growth as a personality, teach me some things about to simplify my life. Change my attitude to studies. Since that moment I study great, learn lessons, and now I can say that knowledge that I received in school, needs in future life. Also some teachers have great communication skills, when you may be a silly person, and don't want to study, they can effort you to start doing this.

This was my blog about teachers, their skills, and their place in our life. This year was for you, we say, thanks to our teachers, for their work with us. Subscribe to our school blog, to continue to read our posts.

Bye!

How teachers find a way into one's heart

'Your heart is slightly larger than average human heart but that's because you're a teacher'

There are a few (Aaron Baccall)

There are always some teachers, that have good relationships with students. For example, in our school my ~~histob~~ history teacher is just a wonderful person. She is loved by every one, because she is not boring and knows how to teach properly and ~~infrestly~~ interestingly. But when it needs she can get mad but it happens really rarely. She also can tell us some interesting story from her or somebody else's life. And we always get something useful and life-teaching from her talks.

Another example is my English teacher. She really loves her job and put whole her energy into it. She never disappoints anybody, even director of the school! And she also has some crazy skills in English and in how you must teach to make your students not nerds, but really educated and smart people. She always find a way how to motivate you to start work harder!

And I have to say about our Russian teacher! She is very strict and never fail to show how you had to write the some words. She can be mean does something unfair. But the result is worth it. You will know Russian 100%. There is no chance to fail exams if she teaches you. She is a professional. That is why I respect her.

So as we can see all of ^{us} named by me teachers have some alike things. First: they are pro. Second: They know their subject on very high level. Third: They always find a way into one's heart and head.

And by them I became more successful and started be respectful by others. They helped me to become

42-915

a great student, who is ~~been~~ My parents started
talk to me like Tim² also an adult not a kid.
And I am very really thank ful for that. ~~WA~~ Without
my dear teachers ~~at~~ I could it become that person,
as I'm known at the moment. Thank you all!

WRITING

The responsible work of the teacher. Teacher is one of the most important jobs in this world. This job requires many skills like knowing your subject perfectly and be able to teach other people. Today I want to talk about teaching in my school.

My favourite teacher is my English teacher. He has ~~ability~~ many tips & tricks to find a way into one's heart and he knows every paragraph perfectly. Whether it's a nerd or a shy guy in his class, he likes all of them. His attitude doesn't change at all. He is a very nice man. ~~Some~~ Some things I can say about our math teacher. She understands when we are bored or when she can go an extra mile in explaining something. Also, one of my favourite teachers is my computer science teacher. He inspired me to make my first 3D modelling models, which was made thanks to his help. Lastly, all my teachers are good people and I admire them.

In our age ^{the best of} teachers are coming to its end. Many people have begun to study with help of AI or through many other environments, so I have to give them respect for what they have been done to me. I will remember them forever, because if ~~they~~ ^{they} weren't so professionals in their work, I wouldn't be so smart as I am ~~now~~ now.

I want to end this blog with a very beautiful quotation - "Your heart is slightly larger than the average ~~human~~ human heart, but that's because you're a teacher."

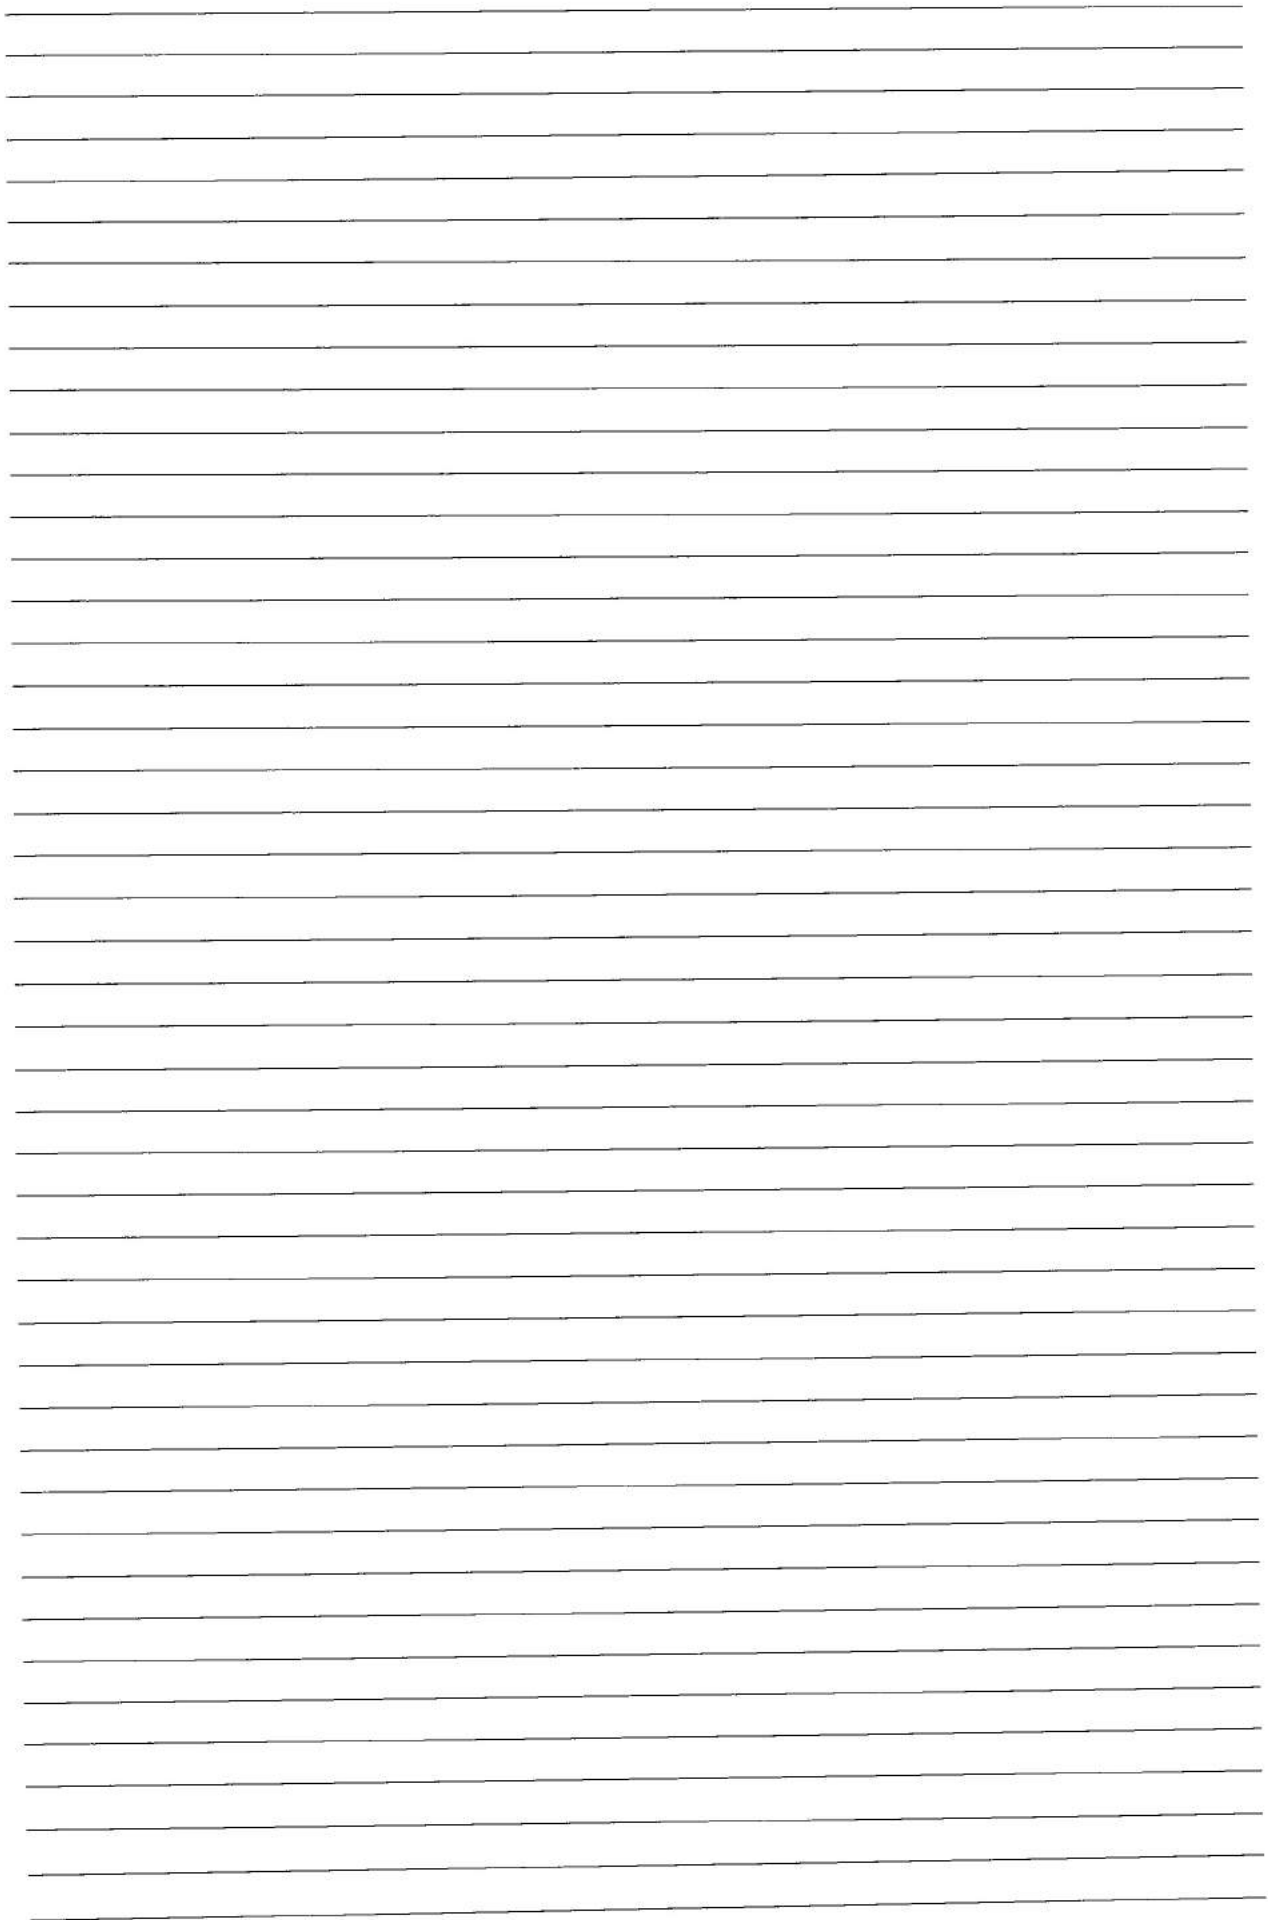

That's all I wanted to tell you.

A great teacher

In my opinion, being a teacher means to be a high educated person who can solve different problems. There are various people living in the world and a good teacher might deal with every kind of person.

Adron Bacall once said that the teacher's heart is much larger than the average human's heart. Using these words I can describe teachers from my school. I study in the school that named as the Algorithm of Success. Teachers there have a huge, tight, bright, kind and nurture heart. They support every student on its personal way to become a good person. Each teacher can find a way into one's heart and go an extra mile in order to help person.

I'm an excellent student in my class. I can't say that I'm a nerd as many classmates say. I really love studying and exploring different sciences. My favorite school subjects are English, math, computer science and physics. I love learning English because, in my opinion, it's a key to the world. Using this language I can communicate with different people. My class teacher is a teacher of computer science. I really love her because together we take part in different competitions. She supports me a lot and ~~give~~ ^{give me some} advices so she contributes to my growth as a personality and changes my attitude to different aspects in my life. In average, teachers in my school are very kind, hilarious, sometimes strict but using this trait they keep discipline in class so I can refer this trait to the professional skill of the teachers.

Unfortunately, the year of teachers and mentors is coming to its end. I'm grateful for teacher's work because they contribute a lot to my development as a personality. I appreciate their efforts.

Who is a teacher?

"Your heart is slightly larger than the average human heart, but that's because you're a teacher."

~~Who is a teacher?~~ Aaron Bacall

Who a teacher really is? Good question. Any of you will answer have different teachers and describe different people meaning "teacher", so I'd like to talk to all over and do generalization.

First of all, teacher is not only a person whom you meet at school and university later, teacher may be different, even parents could be called "a teacher". Who teaches you how to live. The teacher at school is a good person, who loves their children. They can find a way into one's heart.

Teachers stop arguing between students and a word. Teachers have to see the full nature of student inside world and help them to realize themselves. So you should love your teacher and they love you.

The blog is devoted to the teachers of my school. I won't name any of them but never the less. They help me a lot, if they didn't help me, I would struggle a lot at my studying, and would be a very boring and not interesting person.

The professional skills of my teachers are being kind and smart, understand all and everyone. Some of teachers may be very

strict, but it's all for us! Think of it
 if not a teacher, who would teach
 you how to live in a group of
 people? How to communicate?
 How to find your self? Well, the
 parents, you may answer, but
 no. Parents need love you more,
 cares about you more, but they
 can't teach you everything, and
 sometimes can't be that strict.

The meaning of teachers is
 very important, as you can see.

So Aaron Baccell I was right,
 teachers heart is larger, than
 the average human.

Teacher is a person that you
 will remember for all your life.

The profession of teacher^{gr}

~~Education is an~~

"Your heart is slightly larger than the average human heart, but that's because you're a teacher"

Adron Bacall

Education is one of the most important parts of our life. In fact, at school we learn how to solve problems. Moreover, we study different subjects which help us with choice about future profession. However, it would be impossible without teachers.

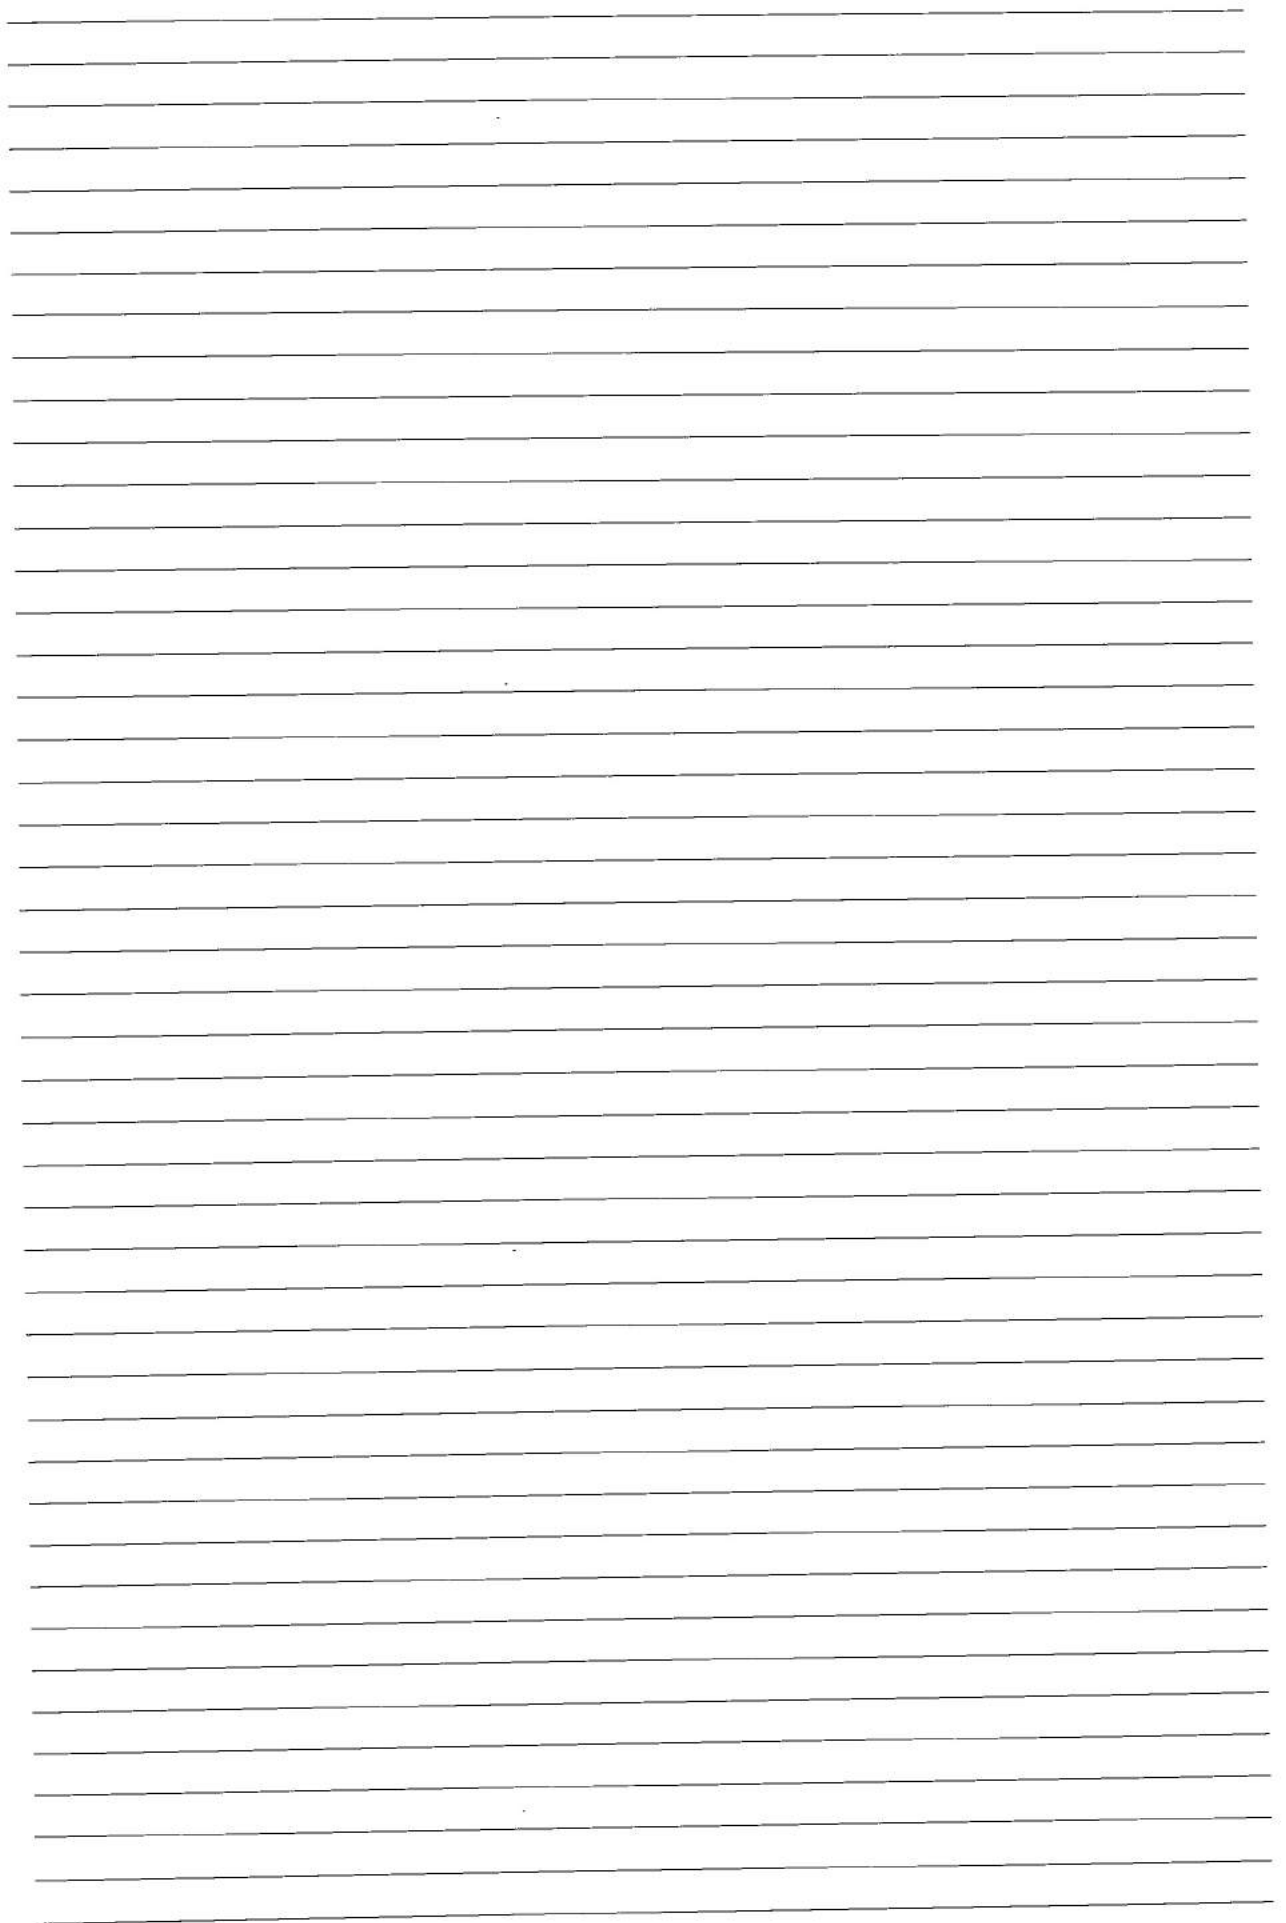

Actually, it is hard to be a teacher. Firstly, you need to be patient and attentive to your students. Secondly, you have to repeat the information regularly to have excellent knowledge in your sphere. You must also have to work with huge amount of documents.

As for me, I think that teachers at my school are the best. They are very intelligent and can answer any question you have. Such mentors can find a way into one's heart. Thanks to them I love studying very much and take part in competitions regularly. Teachers at my school are hard-working, so I always have an opportunity to ask them. They are an example of great mentors for me.

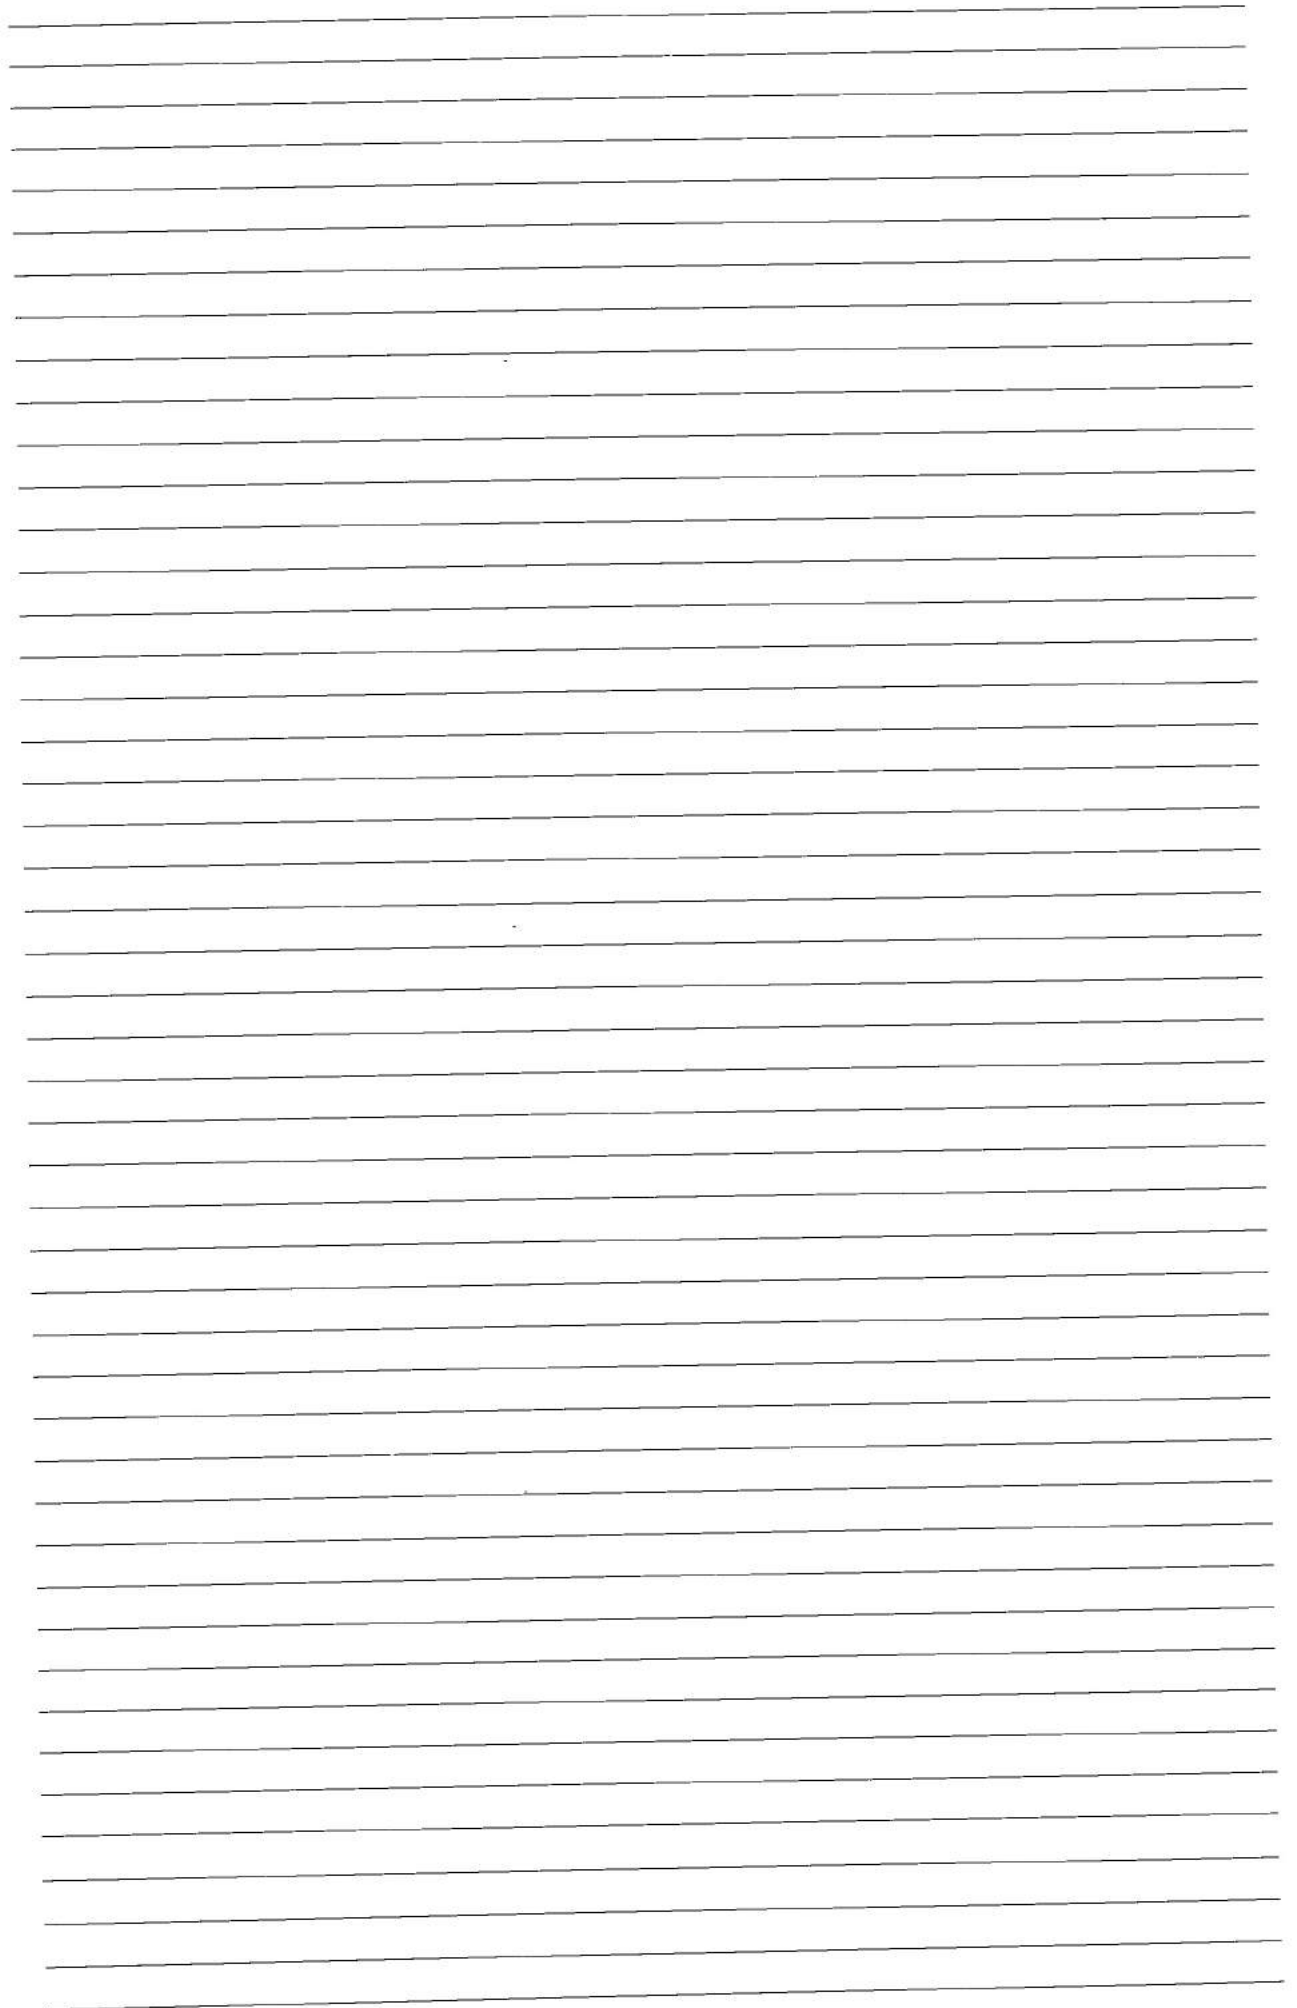

In conclusion, I want to say that the profession of teacher is very important. It is not a big deal to go an extra mile if you have a good mentor. In my opinion, it's not necessary to find great honor to be such a great specialist.

TEACHERS IN MY SCHOOL.

Everyone knows that the profession of teacher is really difficult. But, anyway, it is very important. Teachers all over the world help their students to understand how this world is working. But I will tell you a little bit about teachers in my school.

Everyone knows that this year is a year of teachers and mentors. And it is important to speak about their work. I would like to say that I have never met teachers with such professional skills. They have got just amazing programme for studying. Also, all teachers have got a large experience in life and their professional career. Teachers in our school always help our little pupils and ^{help} to contribute to their growth as a personality. I must say that they are really good as people. They are kind and helpful and always find a way into everyone's hearts. As I think, they always have changed my attitude of some things. I have become more sociable and helpful.

In conclusion, I can not say that teacher is like your "second mother" and school - your "second home". You are studying at the school for a long period of time and, of course, it helps you to choose your job and meet a lot of interesting people.

Teachers of our school

The Year 2023 - the year of teacher and mentor - is coming to its end. Teachers are the people who can easily find a way into students' hearts. Perfect teacher + needs to get devotion from his work. And this type of teachers you can see in our school. Lets talk about them!

Firstly, of course, our favourite English teacher. Despite of her words about what will she do if we won't do homework, she is so kind and hard-working. She is also so responsible and always can help you if you don't understand something.

Second, it is a Geography teacher. With her everybody + can become a nerd and huge fan of maps. She literally obsessed with her subject and always presents new themes of the lessons in different exciting ways.

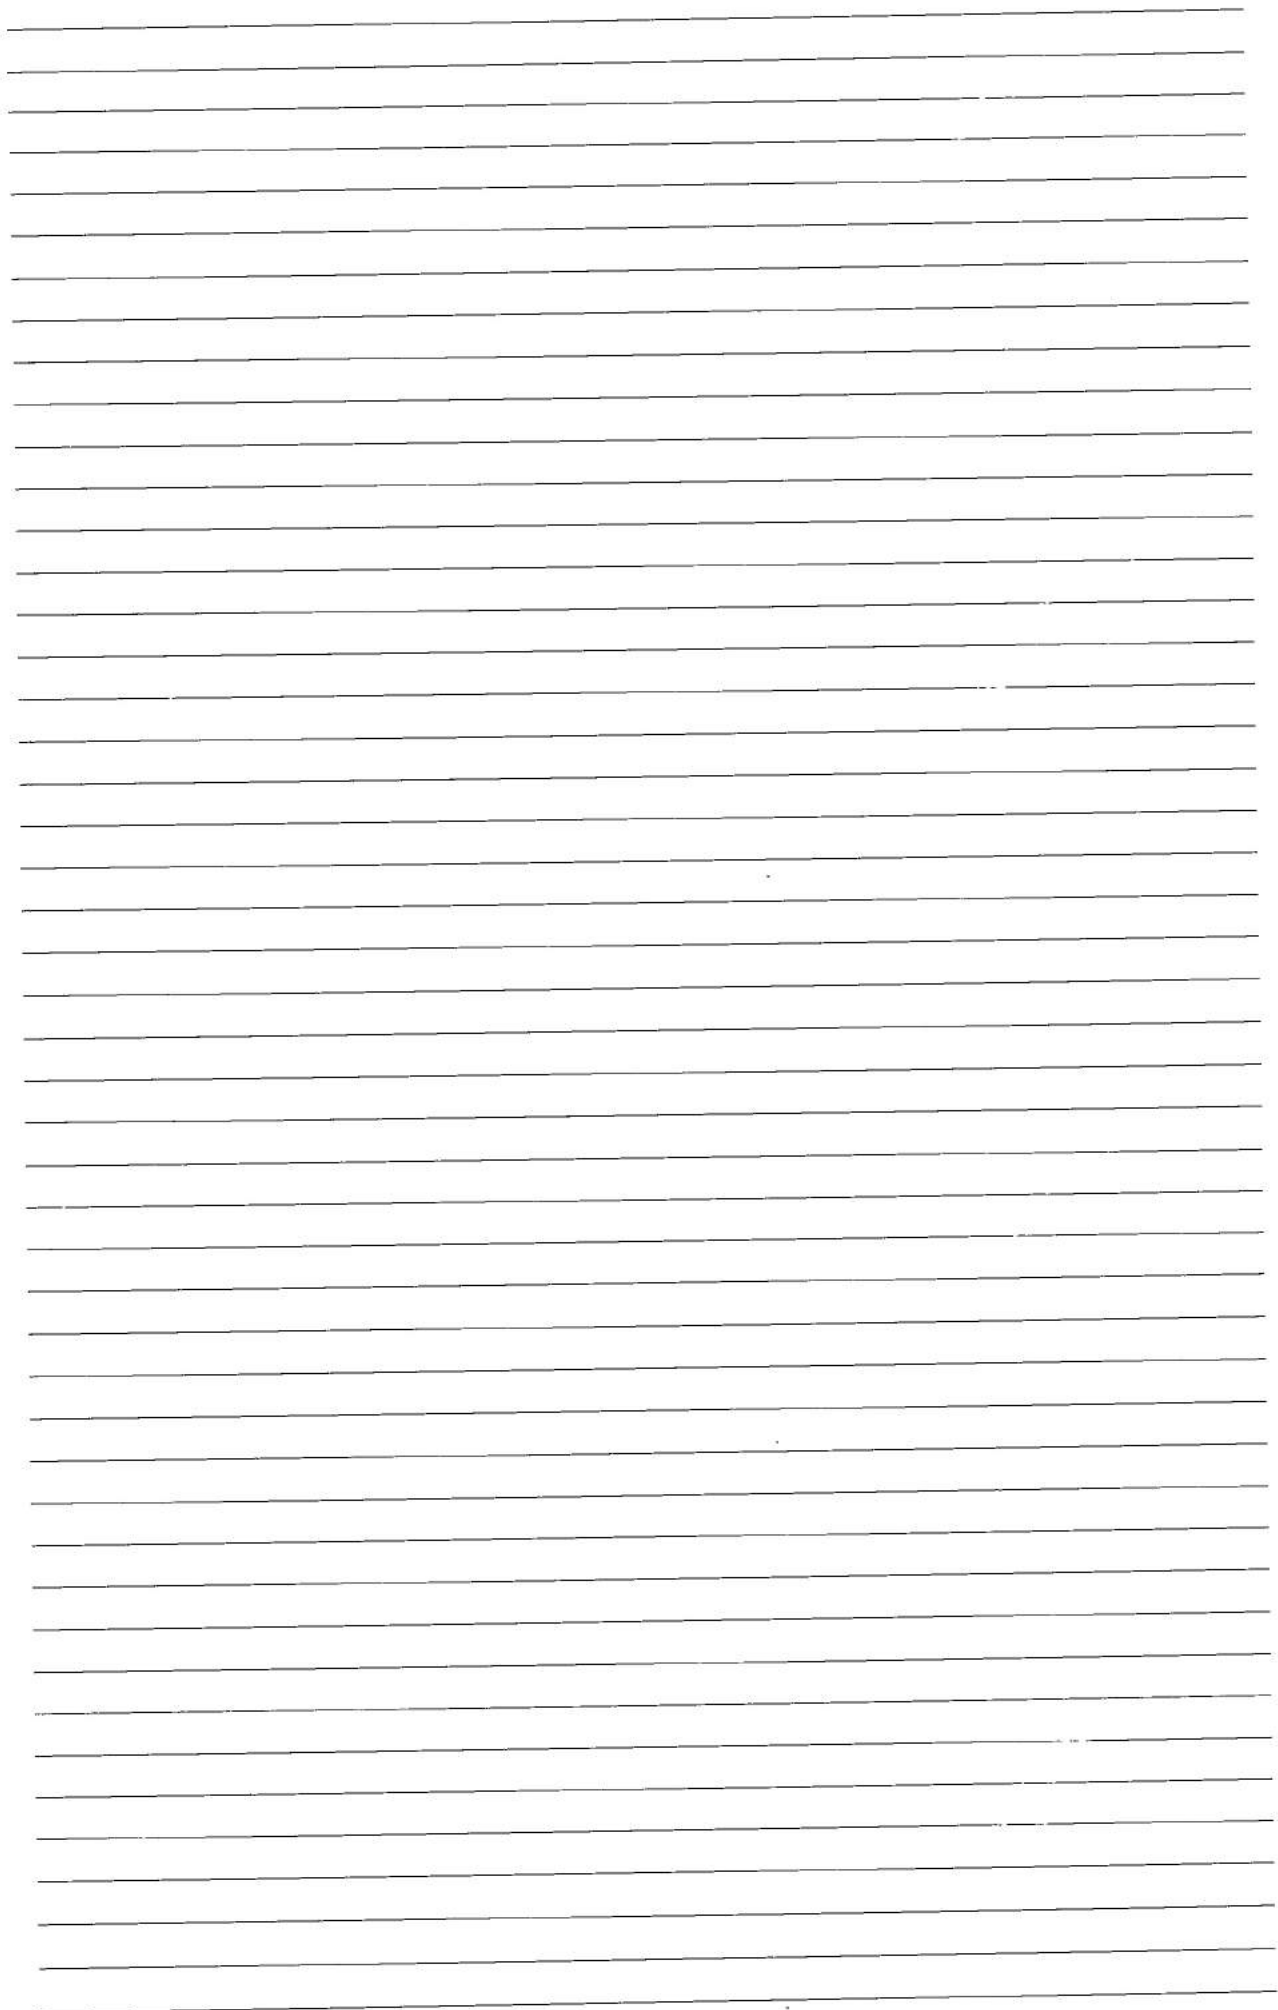

Next teacher of Social Science. He is a genius! And I am not joking! The way he give us new knowledge is incredible. Also he is a huge fan of several mind-breaking games and sometimes he give us opportunity to take part in some of them. He is so cool!

The last teacher will be teacher of Russian Language, and literature. She is not so long with us, but the way she presents her subject. That is so awesome! + with her you will perfectly understand all rules of Russian language, quoting all Pushkin's poems, and pass exams with high percents and marks.

Big hearts of teachers

"Your heart is slightly larger than the average human heart, but that's because you're a teacher" (Aaron Bacall)

Your teachers always support us. It makes us confident. They are the best because they understand and ~~the~~ can help if you have problems. ~~The~~ Teachers - our second parents. They find a way into one's heart. As I reflect on my own journey, I realize how profoundly my teachers have shaped my attitude towards studies and ~~the~~ life itself. They have transformed me from a mere student into a true learner, igniting a passion for knowledge that will remain with me for a lifetime. Beyond academics, they have taught me the value of curiosity, open-mindedness, and continuous self-improvement. In conclusion, our teachers are the heart and soul of our education. Their undying dedication, unwavering support, and unparalleled guidance are treasures that leave an indelible mark on our lives. As we bid farewell to this remarkable year, to the exceptional teachers at our school who have gone above and beyond in nurturing our mind and hearts, I think school is an important part of our lives. We grew here, it's our second home and teachers, our friends and second parents. Everyone loves their and they love us. We are their student and second children. I can say easily that students and teachers are school family. At school I felt in love and the teacher, the classmates had supported me for a long time. I was very important for me. It shows how the teachers, glad to see happy students. I'm happy that I met my teachers in the past.

Now Aaron Bacall talking: "Your heart is slightly larger than the average human heart, but that's because you are a teacher." I agree with quotations of Aaron Bacall. My teacher's heart's say her will be the best teacher.

I want to talk about my favourite teachers in my school and in all world. She is my teacher. She is very interesting people. I like she, because she doing me very kind people.

How me do childrens very smart, kind, and clever? You can ask this important question and she give you answer, because she knows it all. Absolutely all students in my school very like her lessons. She is Russian language's mother. She is very smart and very kind. Why children like lessons with her?

At first, she always smiles and very beautiful, but she is a very professional teacher.

At second, she loves everyone child and will be happy about something winners. You know, she likes animals and children. She wants do this world better. And she do your students in my school better. We with my favourite teachers helped stray dogs and stray cats after school, we went in zoo and had very have very interesting and happy memories. In my opinion, I will never not forget my favourite teachers in all my life.

Well, it is all I wanted to say in my blog. Will you writing in comments about yours favourite teachers. I think it is very interesting topic.

Bye-bye, my dear subscribers!

My school teachers.

In this blog I want to tell about my teachers. I can tell about them very long time. They is one of the best people in my life. I enjoy time when I with my teachers as like I love my first teacher. When I was a little child, my attitude to studies wasn't important and my kind teacher said to me. "If you want become successful person in your future, you have to study hard, study different sciences and get new abilities. When she said me it, my attitude to studies changed, because I wanted to make career and get success in my future work. For me teachers in my school are second parents and second home. In my opinion teachers are people, who make our life better. They give us new knowledge and they support their children, which they teach as a personality. For example, usually they help have important place in our life. Also like I want to describe the professional skills of the teachers of my school. My teacher of English's brilliant at her lesson. On her lessons we feel, that we ~~have~~ arrived in other country and feel with other people as my teacher of maths is very clear, supportive and honest. My attitude to teachers in my school is fantastic. I very love them. I consider that teachers have to be teachers. Many people can't be teachers. It's very hard as said Karen Basan. "You want is slightly larger than the average human want, but that's because you're a teacher". That is all I wanted to say in this blog.

People whom I respect
 "Your heart is slightly larger than the average human heart, but that's because you're a teacher". Such words were said by Aaron Bacall. I agree with this quotation. That's why I'd like to connect my post ~~not~~ with teachers in my school.
 It's hard to deny the importance of teacher's work, as teachers see us every day during many years. They do everything for us. We can even call them "parents" because they can worry about us. They find a way into one's heart without any problems. sp

I'd like to say that teacher's work is very difficult as they should be the heads for us. Working as a teacher is so emotional. That's why they should be strong. sp

Teachers have been growing with us for many years. They see our results, give advice, respect our opinion and go on extra mile for us as their heart is slightly larger than the average human heart. sp

I'm going to tell you my story. My English teacher has changed my attitude to languages. It's really amazing situation. I couldn't stand languages at all as I was a small girl. My teacher noticed it and she decided to help me. sp

We used to have extra lessons. During them we were playing. I loved our games so much, but my teacher had only one rule: use only English language. In few month I fall in love with not only English, but with all subjects. sp gr

I would like to conclude by saying that teachers are nurture. If we didn't have them, we would be stupid people. Their devotion to us is a must. sp

for our lives. Do love and respect your sp. teachers!

Talent of being a teacher.

It's a well-known knowledge that teachers work not only about teaching their subjects, but also it included a need to find a way into one's heart, because an impact of teachers' role in students' life is very big. We grow-up in schools with our friends and our behaviour can be inappropriate.

In my school teachers always give me good advices that can improve my attitude to studies. For example, one year ago I didn't really like maths and also I wasn't good in it, but my teacher said that I can ask her whatever I wanted, if I don't understand something. And I did so: there was a problem with one task, but when I asked my teacher for help, she agreed to solve my problem. Only because of her devotion to her work I could improve my maths skills.

There is another example of my Russian language teacher. I have a new student in my class that don't like literature and Russian language. He always wasn't prepared for lessons, because he thought that this subject was unnecessary for him. But the teacher decided to go an extra mile: she gave some interesting tasks him and asked if he was able to complete them. Firstly, he didn't like this idea, but after some time has passed, he started to like literature even more than other subjects. So this nature helped him to become more loyal to literature and Russian language.

Every teacher in my school have professional skills, that's why we should pay respect

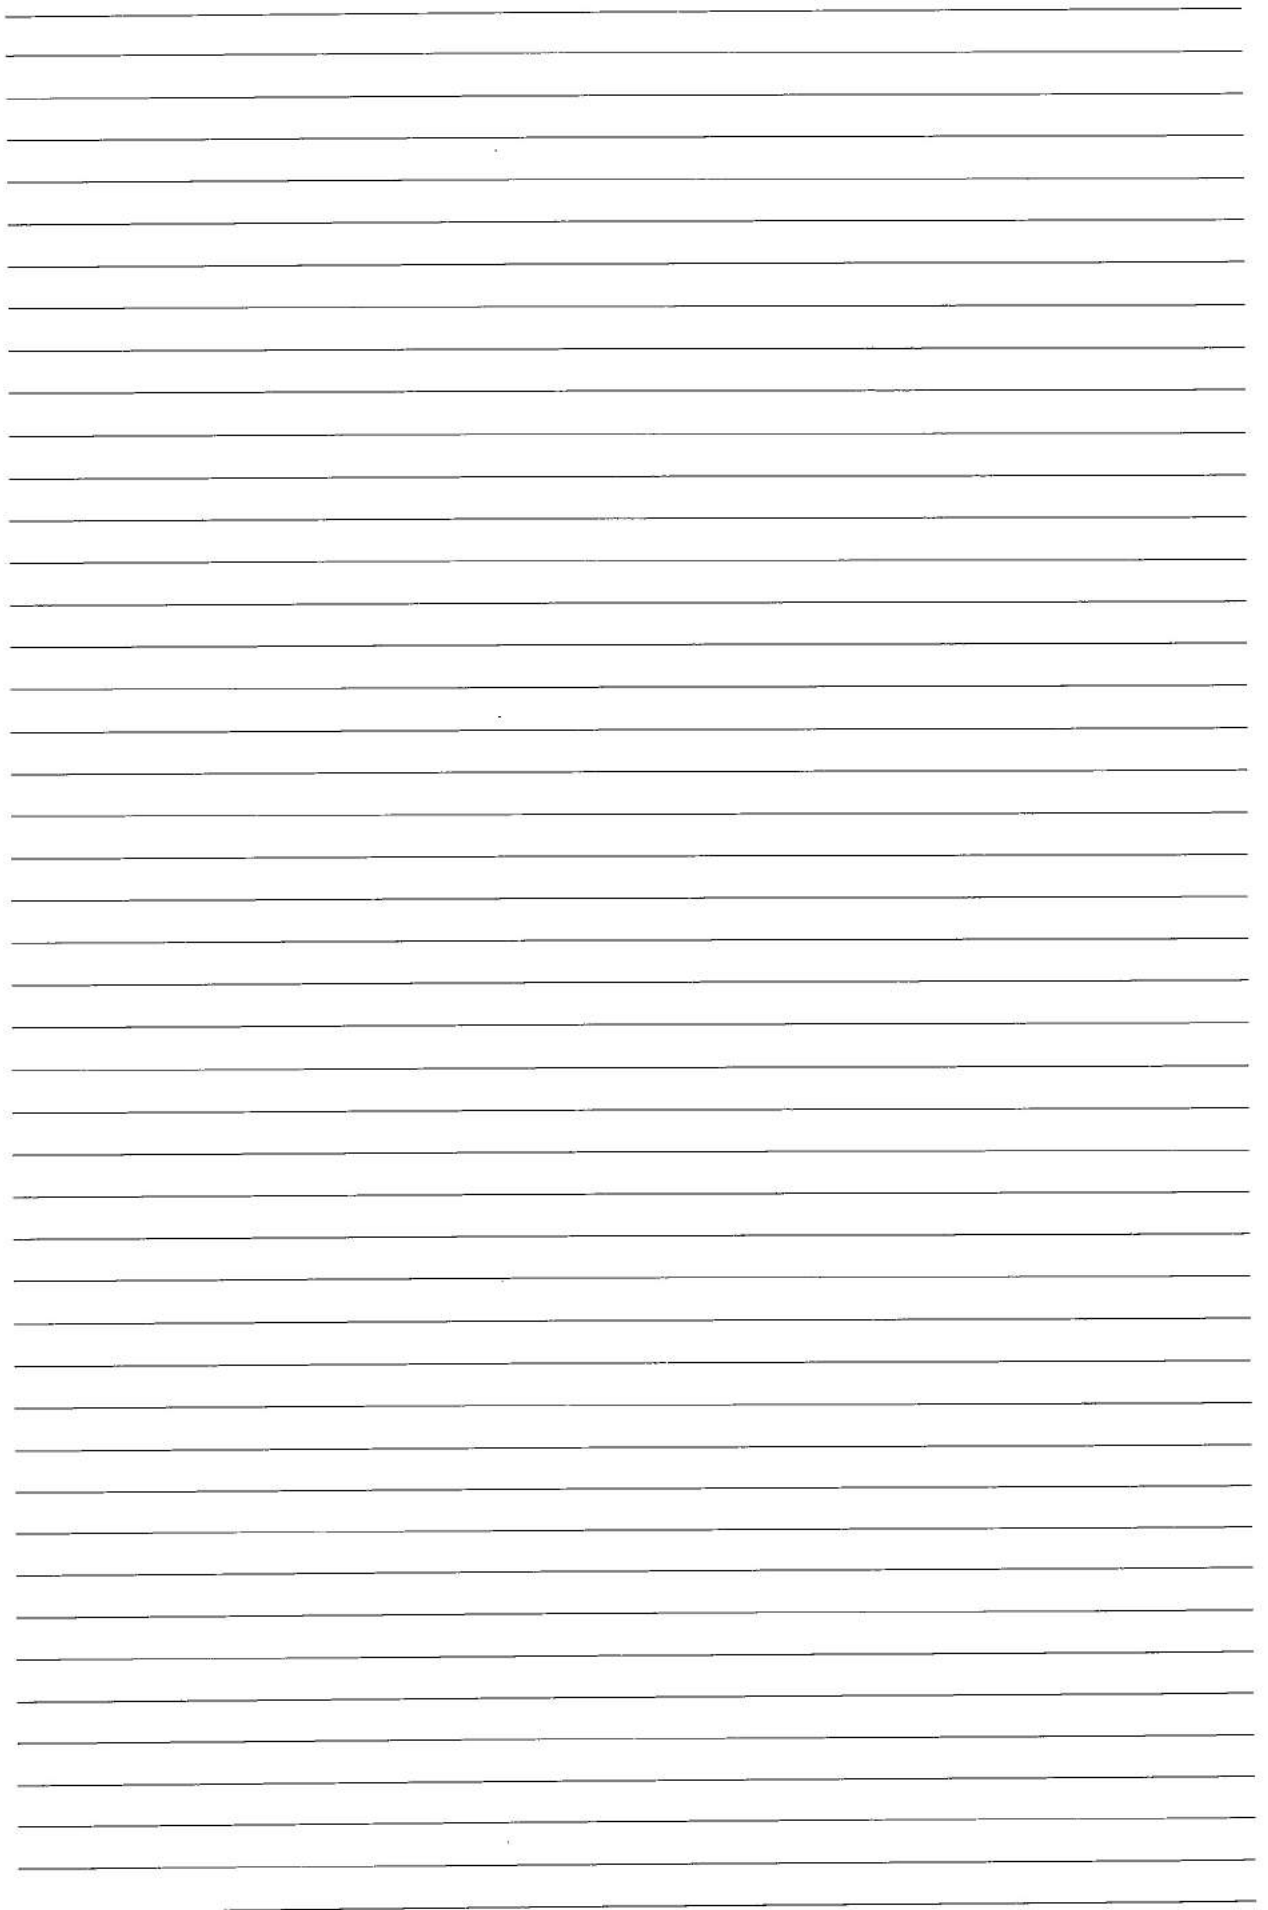

and try to improve our attitude to studies. But as I said in the first paragraph, teachers have to find a way to pupils' hearts, because only this type of studying can really improve our skills. It might seem soft, but students don't pay enough respect to their teachers. They can't like them, but it's a need there is also a need to be mean with teachers, what it makes difficult to understand what our teachers want us to be. They only wish the best for us and make our school life interesting by adding different activities ^{during} short breaks between lessons. I really hope that students will start to pay respect and try to be more polite, clever and kind, because only this behaviour can improve our teachers' hard work.

'Your heart is slightly larger than the average human heart, but that's because you're a teacher' (Aaron Baez)

Let's be honest - who would we be without our teachers? They are almost our second parents! Through all these years of hard work and devotion they made us know so many things about this world: why the sky is blue, why humans have five fingers, why circles are so round and other scientific stuff. But most importantly they taught us how to be kind of course, there were no straight forward lessons of kindness, but kindness was taught indirectly, by actions. For example, my previous math teacher forgave me so many tests not done in time that I have lost count of them. But she knew that I understand the given material, that I study really hard for good grades in math and that I just have a very slow thinking process. My current math teacher doesn't take these excuses, but she's still very kind. She teaches kids that be in the same class or school as others, because of their challenges, either mental or physical. She comes to their homes to give them the needed ~~knowledge~~ knowledge and a hope for a brighter future. She gives an extra mile for that, quite literally, because these kids really live very far away. Another example can be shown by my english teacher. If she has only one lesson to give at the day, she would still come to work and ~~with~~ all the way from another part of town by the bus (that's almost a two hours ride) and will teach this one lesson. That's basically how she found a way into my heart, so I studied english fondly

AR-1111

and ~~still~~ I'm still studying it. I literally
became afraid of an English language!
I hope I'm not alone with these feelings.
We need to thank teachers for that. And I
thank them personally. Thank you, ^{the} great
workers of all the good in this world.

"Your heart is slightly larger than the average human heart, but that's because you're a teacher." That is what Aaron Bacall used to say about the people, who have been inspiring us for years, those who could always find a way into one's heart. In this blog I want to talk about teachers and how they affected my life.

I think, in order to become a teacher, one must be passionate about working with children and have an actual devotion to this kind of lifestyle. My elementary school teacher was surely one of those people. She would always go an extra mile to make us, her students happier. I could even say that she nurtured us all. Without her, I would be the person I am right now.

Our middle school teacher was also a great person. She was strict, but she would always help people in need. She was a math teacher. To be frank, I have never been particularly good at maths. I am not a nerd, however, her lessons were extremely informative, so everyone could get a better grasp on this subject.

The physics teacher was an admirable man. He was really kind to us and you could ask him to study extra if you wanted to. I think he is the one who contributed to my personal growth the most. He inspired me to become a pilot and I am thankful for that.

I didn't get along with my social studies teacher. I guess she is pretty good at her job, but we ^{were} just not compatible! We would argue a lot and I even got suspended once, nonetheless I think she also contributed to my personal growth in some way or another.

Thus said, in my opinion, teachers are some of the most important people in our society, as without them we would be able to get education and a new outlook on our life.

"Your heart is slightly larger than the average human heart, but that's because you're a teacher".

2023, as we know, is a year of teachers and mentors. Now it almost ended, so I'd like to discuss a little bit about the topic of people who are always finding a way into one's heart.

As for me, teachers were always people who do really hard work. I've never met one who wasn't working that way. For example, in the school where I study I have met one tutor, who was always at work. But she was ~~not~~ even suffering. She always says that she really loves her profession. And when I look at her I can not even think differently or suppose that she lies.

I know another teacher who, I can say, the best one ever. He is in love with his work too and he can make everyone love his lessons and classes. This man really made me grow as a personality because he is not only a good teacher, but is a good person too. He changed my attitude to study and life in the whole and I really appreciate that I've met him on my way.

Honestly I would like to say "thank you" for all teachers I have ever had in my life because all of them affected on me in some way. I believe that a teacher who can go an extra mile for his students is the best one. Luckily I have met only that kind of mentors and tutors. I am ~~also~~ sure that I became who I am only because of them. Teachers are people who have a big heart and always ready to share their inner light with other people no matter what. For doing it person really need to have a big heart. And they have such ones.

WRITING

We invited pupils to ~~to~~ join English Fans Club. I know, ^{11Gr} name is not very interesting, but activities we will do are very exciting and helpful. You will learn English fast, ^{1Gr} ~~surround~~ with friends. You don't need to learn by heart big stories and sit ^{1Gr} for hours in each exercise. No! It will be different from ^{1Gr} ~~clubs~~ ^{all} you know! ^{1Voc}

Begining is at 5 o'clock on Wednesday and Friday.

Our club is special for its manner of learning. We will explain many interesting things. For example, the history of big cities like Moscow, Saint-Petersburg, New-York, London. ^{1Sp} Geographic situation of countries. Strange food like chilli ^{1Gr} ice-cream cake with flavour of pizza. We will talk about animals and their habitats. About books and films, music and hobbies. That way you will practise English and study new things. Each lesson will be discovering to you! Also we will play on stage like really artists. ^{11Voc}

You like it! I hope yes! Join our club now and you won't be disappointed!

Our club is for teenagers from 12 to 13 years old. Be ready to active work, interesting stories and things. Grammar and vocabulary drills, of course, will be little bit difficult, but if you will listen carefully you won't have any problems. ^{1Gr/Voc}

Welcome to the Drama Club!

Dear readers, let me introduce to you our Drama Club! It takes 5 minute, no longer! Do you like roleplays? If you interested in it I promise you will love our club! We plays around 3 plays per day and take part in city contests every ~~month~~ month. We totally have 10 awards! Sounds great but you really bad at roleplaying? Don't worry! It's piece of cake with our coach Helen! She'll teach you to play your role like amazing actors. Remember, her lessons are free and you will not havent to pay for it. So wanna to join us? Also we start our club at 8 o'clock and don't like person who late come late for many times. So wanna join to us? First at first, you should come to us in our musical classes and answer for someone questions. Don't worry even child can give an answer for it. Also you should ~~have~~ ^{take} a passport with. That's all. Have a ~~in~~ cheerfull day and give a shot to become masterprice actor!

WRITING Cooking Club

Hi, everyone! I think you know, that our routine is really boring now. So, I'd like to present ^{you} my idea of the cooking club at our school!

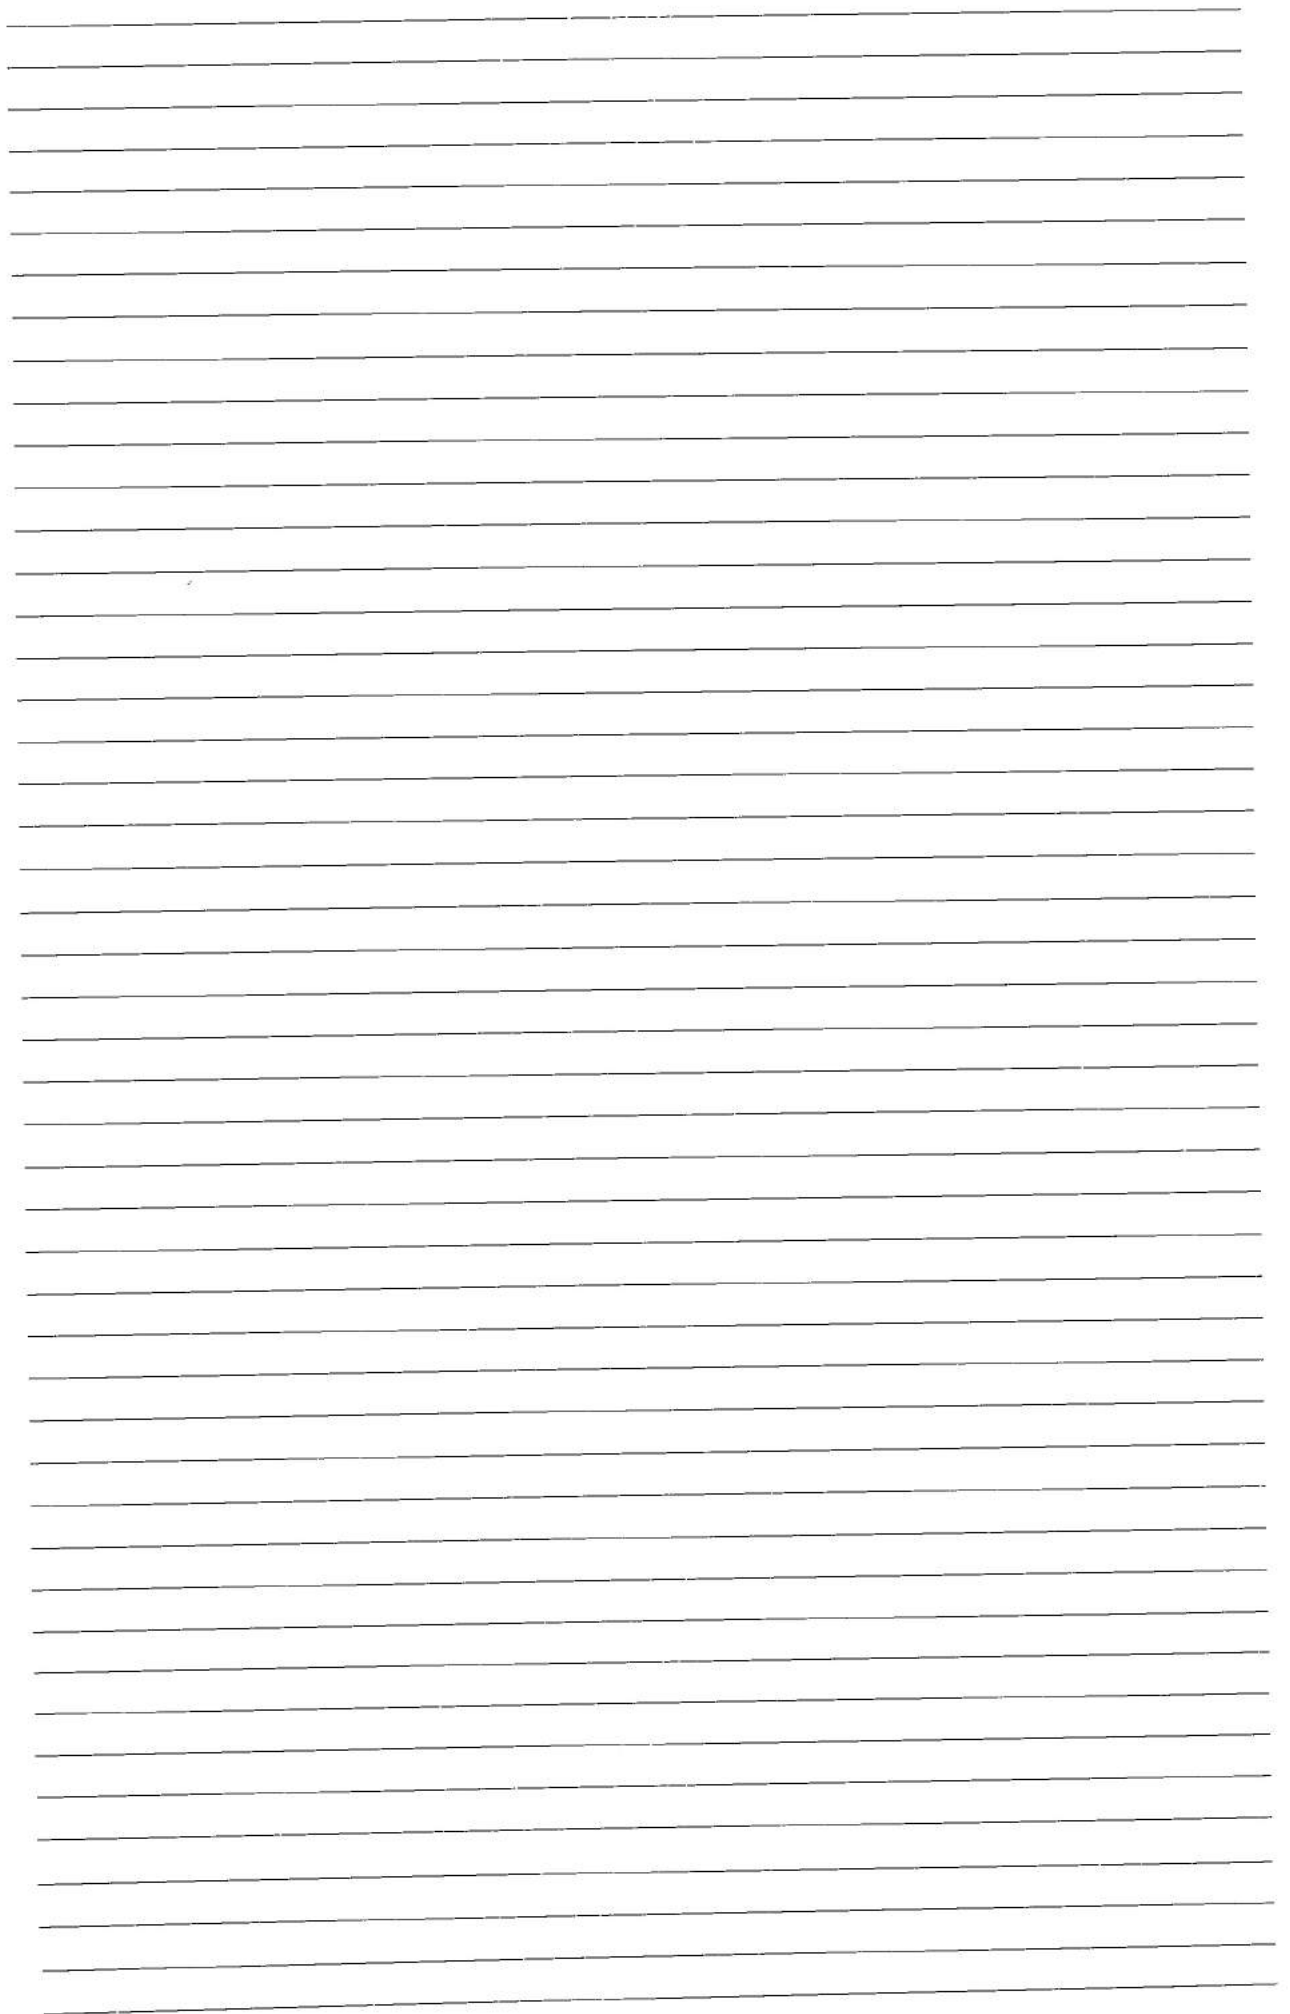

+ In my opinion, the cooking club is an amazing way to spend your free time. This club is special: besides cooking you can make many good friends here, have fun, listen to music (during the cooking) and of course learn how to cook tasty dishes! My friend and I have a lot of recepies!

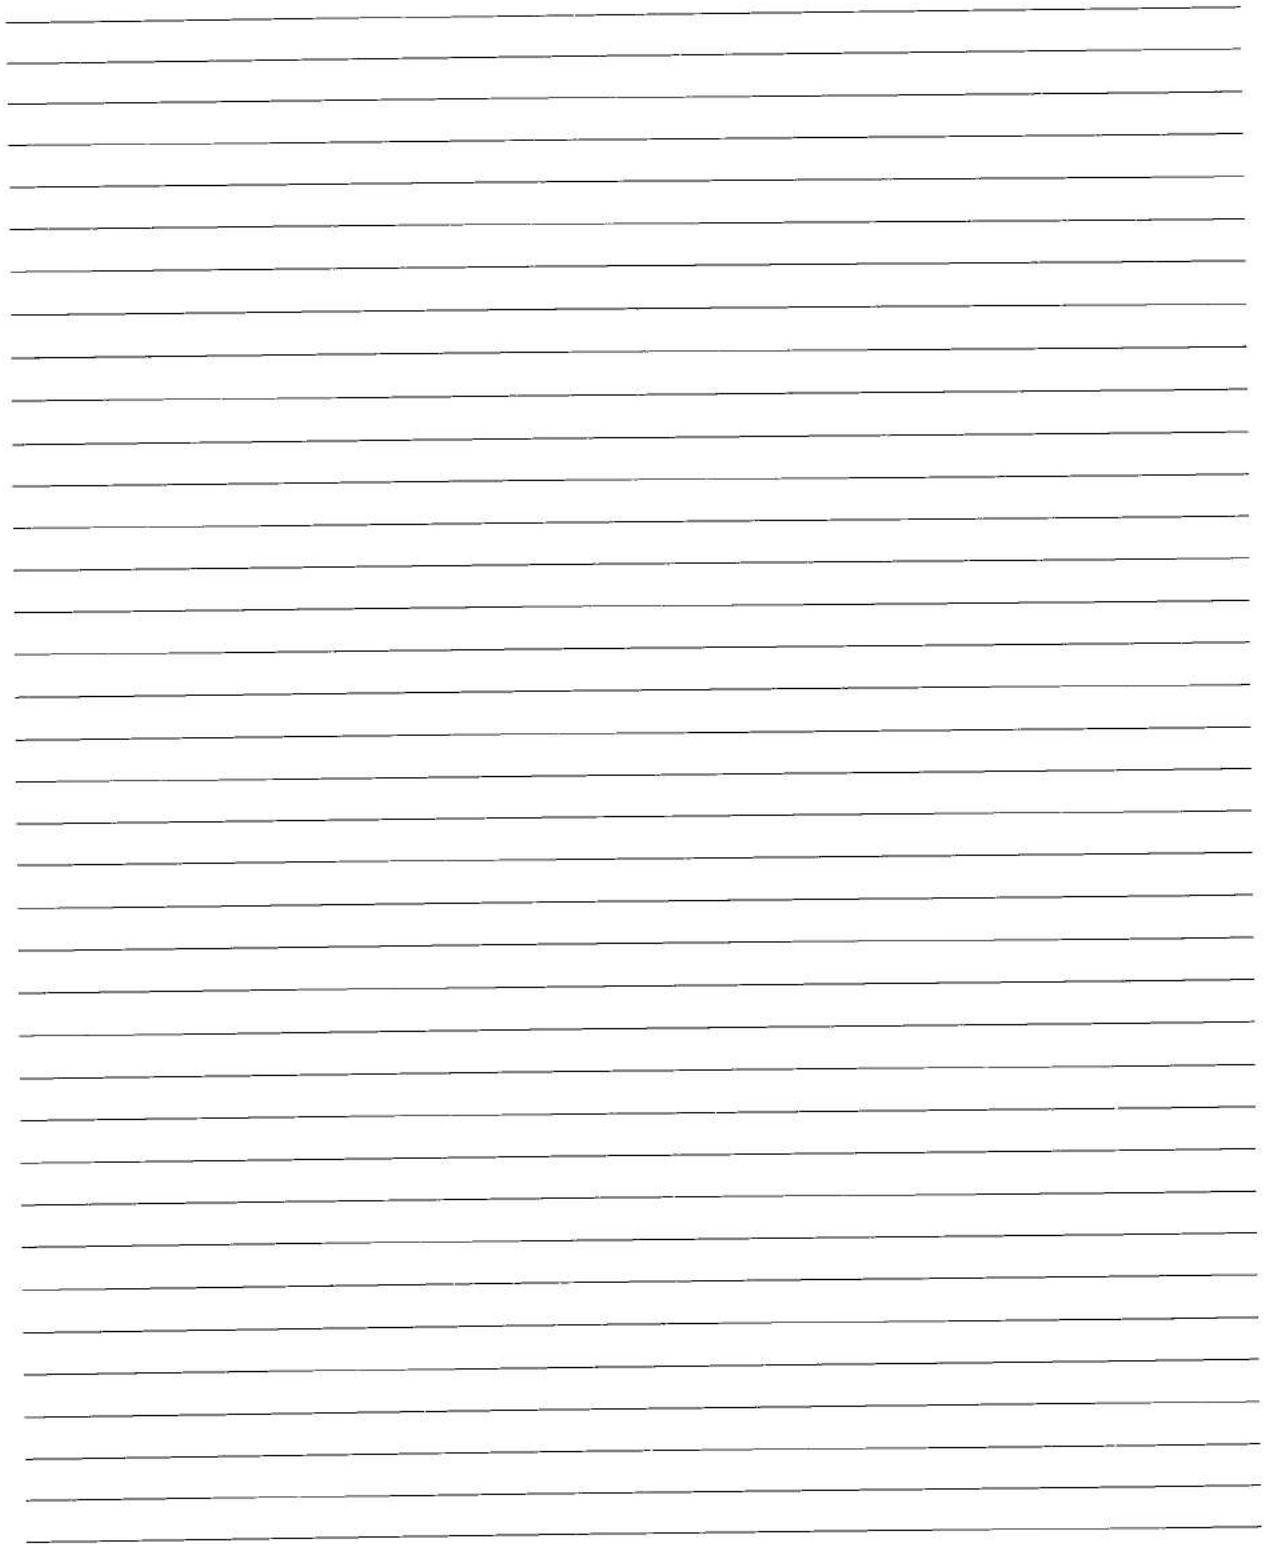

Many people don't have enough time to cook four or five times a week, so we decided to meet three times a week (on Monday, Friday and Sunday). We think, that all people in our club are students and they have to do their home-work, so the duration of each session is two hours (from three to five o'clock).

w We have some rules in our club. For example, you should be friendly and kind. Besides, you have to cook on basic level. In some situations we can tell you to buy food yourself. It's really important to wear old clothes, because it will be dirty in every way!

So, it's all information about "School Cooking Club". If you want to be the participant of the club you will call to: +7 333 222 (Daria Shatalova). Good luck!

Hi, students!

I would like to invite you into our school's cooking club, I named it "Infinite Cook". Our cooking club is not like others, the special thing about it is that we are receiving recipes from Spain for films. We are planning to call our food night "Infinite Cook". Our club and half of the members will go to members of our club. Our sessions are only 2 times a week. The cooking club is open every Tuesday and Monday at 7:00 PM. If you are the member of our club, you will be able to eat a lot of different delicious foods. In our club every food from your favorite country is available. There are a lot of benefits for everyone to participate. You don't need to pay for our food, it's free for everyone and you can join our club. I wish to see all of you in our cooking club. Don't forget to bring your ingredients on 4 PM. Thank you very much!

WRITING

Hello everyone!

As you can see, this school have a lot of different clubs. Now, I want to invite you to join us to a Chess Club.

I opened this club for people, who like and get enjoy from chess. There is ~~I and my~~ we together will talk about the a most popular player on chess in the world, then you will learn a new tactics in the game and more. Also we will play with other person, who want to enjoy in the club. ~~We~~ I also sometimes will make a presentation about the most interesting game in the chess, and show to you.

Chess Club will be working in the school on the Thursday and Friday at four p.m. After school lessons you can come to the 5th cabinet, I will wait for you. I will be waiting for you. I have all of the ~~attribution~~ thing that you need for the playing.

I wish, I see you soon. Also, if you need do your homework after the lessons, you can come to this cabinet and we help you.

In the club you can't can get a rest with it and get more fun. Of course, you think the chess is boring and getting old, but if you will be playing with us, I guess you ~~change~~ will change your mind about it. 200 est.
